KORRA

An abstract illustration featuring a series of vertical grey lines of varying lengths that create a sense of depth and structure, resembling the walls and roof of a house. Interspersed among these lines are numerous clusters of small, yellow, circular shapes, which could represent windows, decorative elements, or a textured surface. The overall composition is dynamic and geometric.

GUNDECHA BROTHERS FARM HOUSE

# GUNDECHA BROTHERS

PROJECT TYPE: Farm house

LOCATION: Bhopal

CLIENT: Padamshree Gundecha Brothers

## ABOUT CLIENT:

### Gundecha Brothers represents

Firstly to the oldest living civilization...

Secondly to the oldest living traditional music

Thirdly they are nurturing and taking the great tradition of 'Guru Shishya' parampara ahead.....

To the world community preserving and glorifying india culture  
It would be our aim and objective to portray the same in all the design

The farmhouse is in the outskirts of bhopal.

Conceptually it represents beautiful amalgamation of architecture & indian classical music.

The main concept behind the total built form is Raag Charukeshi: one which is practised by the Gundecha brothers. A new method of brick masonry has been derived to erect the building.

## MUZITECTURE

To find synonyme between music and architecture and derive architecture from a bandish (song) of a raag.

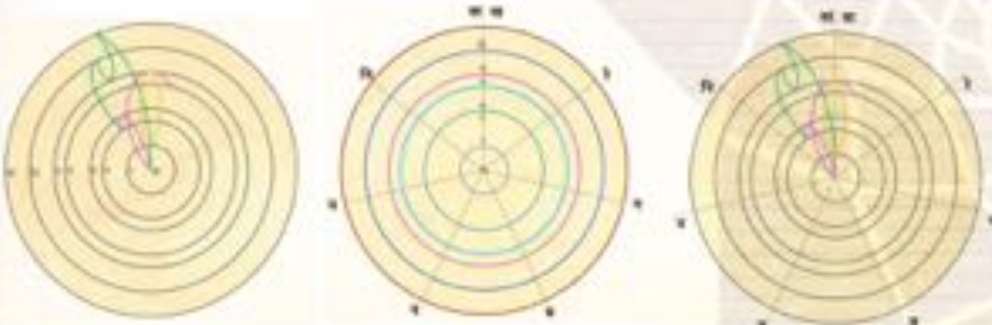

All the music of the world that exists consists of 12 swaras.

सा रे ग म प ध नि नि सा

From the feedback and mind sketch analysis of our client it was derived that RAAG CHARUKESHI will be studied, analysed and represented.

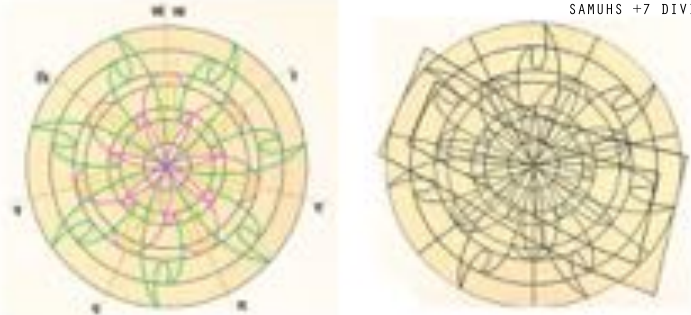

## RAAG CHARUKESHI

ASCENDING	सा	रे	ग	म	प	ध	नि	सा
आरोह	1	1	½	1	½	1	1	
DESCENDING	सा	नि	ध	प	म	ग	रे	सा
अवरोह	1	1	½	1	½	1	1	

WE CHOOSE THE THREE SWAR SAMUH. THEN WE DIVIDE THE CIRCULAR GRID INTO 7 EQUAL PARTS WHICH REPRESENT 7 SWAR.

COMBINING ALL 3 THE PRINCIPLE SWARS OF RAAG CHARUKESHI +3 SWAR SAMUHS +7 DIVISIONS OF CIRCLE.

ON REPETITION OF THE SWAR SAMUH PATTERN RADIALLY 7 TIMES WE GET ' RAAG CHARUKESHI MANDALA '

CHARUKESHI MANDALA AS A BUILT GRID.
